

## **CYBERATTACK ASSIGNMENT**

Prepare a video or a presentation (using images, videos, or PowerPoint) to explain one of the recent cyberattacks in Spain.

Your task is to:

1. Research a recent cyberattack in Spain (e.g., ransomware attacks, data breaches, etc.).
2. Explain the event, including key details such as:
  - When it happened.
  - Who or what was targeted.
  - The impact of the attack.
  - Measures taken to respond or prevent future attacks.
3. Use one of the following formats to present your findings:
  - A recorded video (3-4 minutes) with your voice explaining the event.
  - A live or recorded PowerPoint presentation with slides (3-4 minutes) and voice narration.
  - A visual presentation combining images and videos with narration (3-5 minutes).

Note: You may send your video or presentation with your voice explanation, and we will play it in class. Ensure your explanation is clear, well-structured, and easy to follow. Be prepared to discuss your topic further if required.

---

## Rubric for Assessment

| Criteria                   | Excellent (4 points)                                                                                            | Good (3 points)                                                        | Fair (2 points)                                               | Needs Improvement (1 point)                                   |
|----------------------------|-----------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------|---------------------------------------------------------------|---------------------------------------------------------------|
| Content                    | Comprehensive explanation of the attack, including all required details (when, who/what, impact, and response). | Covers most required details with minor omissions.                     | Covers some required details but lacks clarity or depth.      | Minimal information; key details are missing.                 |
| Structure and Organization | Information is logically organized and easy to follow. Clear beginning, middle, and conclusion.                 | Organized but could improve clarity or flow.                           | Somewhat disorganized; information is hard to follow.         | Lacks structure; difficult to understand.                     |
| Use of Media               | Effective use of images, videos, or slides to enhance understanding.                                            | Media is used but could better support the explanation.                | Media is used but does not effectively enhance understanding. | Little or no use of media; does not support the presentation. |
| Voice and Delivery         | Voice is clear, engaging, and confident throughout.                                                             | Voice is clear but lacks engagement or confidence at times.            | Voice is somewhat unclear or lacks consistency.               | Voice is difficult to understand or inaudible.                |
| Language Accuracy          | Excellent use of English, with no or very few errors.                                                           | Good use of English with minor errors that don't hinder understanding. | Frequent errors that sometimes hinder understanding.          | Many errors that make the explanation hard to follow.         |

Total Score: /24
