

Part 1

1. Find a **job offer** in the IT sector where English is required and embed it in here. Here you have a few websites where you can search:

- <https://www.infojobs.net/>
- <https://jobtoday.com/es>
- <https://es.indeed.com/?sq=1>

2. Write an email (**covering letter**) telling that you are attaching your CV.

Part 2

Business card: It's time to think about your future job and design your own business card. What information should be on a business card?

Your business card should include the following:

- Logo.
- Company name.
- Tagline.
- Your name.
- Job title.
- Website.
- Contact details.

Do your business card using the canva website www.canva.com. If you haven't registered yet you will need to do it now.

To help you edit, type the following words on google and go to images: **business cards ideas**.

In this activity you will have to send two pdfs:

1. One with the answers from exercises 1 and 2.
2. One with the business card done with canva.
